

Industry Involvement Disclosure

The AKC Canine Health Foundation values our corporate partners, and as such, invites scientists from the companies as representatives to engage in our grant review process. We also strongly value our researchers and their need for confidentiality. Our corporate grant review members are bound by strict confidentiality agreements. Please let us know whether it is acceptable for your grant to be made available for review by our grant review committee members who represent corporate entities.

- Yes, it is acceptable.
- No, I would prefer that my research be reviewed by only non-corporate reviewers.

If you answered yes to the above question:

At times, corporate reviewers express interest in specific projects and would like to have direct conversations with researchers about sponsored research projects. Please let us know if you would like to be contacted by a corporate representative if such a case arises during review.

- Yes, I would like to be contacted when corporate reviewers are interested in my research.
- No, I would prefer not to be contacted by a corporation.
