Research Program Areas and Sponsorship

All research grants are supported through a Research Program Area. This allows CHF to create depth in our capacity to fund research in areas of importance to our donors, expand our grant portfolio in a substantial way, and focus on funding research in areas of importance to your breed and organization. Sponsorship benefits include:

-  Updates and final progress reports for all grants within the Program Area
-  Recognition on our website and publications

By sponsoring a grant within a Research Program Area, your contribution will go towards research in the specific area of your designation and allow for even more studies to be funded in the future. Our Research Program Areas are as follows:

Behavior	Lung and Respiratory Disease
Blood Disorders	Musculoskeletal Conditions and Disease
Cardiology	Neurology
Clinician-Scientist Fellowship Program	Oncology - General
Dermatology and Allergic Disease	Oncology - Hemangiosarcoma
Endocrinology	Oncology - Lymphoma
Epilepsy Initiative	Oncology - Osteosarcoma
Gastrointestinal Disease	Ophthalmology
General Canine Health	Reproductive Conditions
Hepatic Disease	Theriogenology Residency Program
Immunology and Infectious Disease	Tick-Borne Disease Initiative
Kidney and Urological Disease	

**To view all active grants within these Research Program Areas, please visit www.akcchf.org/researchportfolio or contact CHF at 888-682-9696 or chf@akcchf.org.*

Please know that your contribution for research will have a significant impact on canine health. Your support will create a greater understanding of canine diseases that will impact the health of dogs for generations to come.

Thank you for helping us to further our mission to help all dogs live longer, healthier lives.
