Independent Auditors' Report

The Board of Directors American Kennel Club Canine Health Foundation, Inc:

We have audited the accompanying statements of financial position of the American Kennel Club Canine Health Foundation, Inc. (the Foundation) as of December 31, 2011 and 2010, and the related statements of activities, functional expenses, and cash flows for the years then ended. These financial statements are the responsibility of the Foundation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of American Kennel Club Canine Health Foundation, Inc., as of December 31, 2011 and 2010, and the changes in its net assets and its cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

Cash and cash equivalents, end of year	\$ 4,280,690	3,394,107

Notes to Financial Statements

December 31, 2011 and 2010

(1) Nature of Operations and Summary of Significant Accounting Policies

(a) Nature of Operations

The American Kennel Club Canine Health Foundation, Inc. (the Foundation), established February 21, 1995, is a not-for-profit organization (exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code) formed for the purpose of furthering the advancement of knowledge of canine diseases and healthcare by clinical study, laboratory research, and publication.

(b) Basis of Accounting and Presentation

The financial statements of the Foundation have been prepared on the accrual basis of accounting.

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Unrestricted net assets – Net assets that are not subject to donor-imposed stipulations.

Temporarily restricted net assets – Net assets subject to donor-imposed stipulations that will be met either by actions of the Foundation and/or the passage of time. Temporarily restricted net assets have been restricted by donors for research grant purposes.

Permanently restricted net assets – Net assets subject to donor-imposed stipulations that the assets be maintained permanently by the Foundation. The earnings on related investments are temporarily restricted, until appropriated for expenditure. Upon appropriation for expenditure, they become unrestricted.

Revenues are reported as increases in unrestricted net assets unless use of the related asset is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or by law. Expirations of temporary restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as net assets released from restrictions.

(c) Use of Estimates

In preparing financial statements in conformity with U.S. generally accepted accounting principles (GAAP), management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements

December 31, 2011 and 2010

(d) Fair Value

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. GAAP establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. GAAP describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Foundation follows the measurement provisions of Accounting Standards Codification (ASC) 820, *Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*, to certain investments in alternative investments that do not have readily determinable fair values. This guidance allows for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value using net asset value per share or its equivalent, as reported by the investment managers.

Most investments classified in Levels 2 and 3 consist of shares or units in investment funds as opposed to direct interests in the funds' underlying holdings, which may be marketable. Because the net asset value reported by each fund is used as a practical expedient to estimate the fair value of the Foundation's interest therein, its classification in Level 2 or 3 under ASC 820 is based on the Foundation's ability to redeem its interest at or near the date of the statement of financial position. If the interest can be redeemed in the near term, the investment is classified as Level 2. The classification of investments in the fair value hierarchy is not necessarily an indication of the risks, liquidity, or degree of difficulty in estimating the fair value of each investment's underlying assets and liabilities.

(e) Concentration of Credit Risk

At times, cash and cash equivalent balances may be in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limit. Cash and investments in money market funds and shares of registered investment companies are uninsured.

(f) Cash and Cash Equivalents

The Foundation considers all highly liquid investments with an original maturity of three months or less when purchased to be cash and cash equivalents.

Notes to Financial Statements

December 31, 2011 and 2010

(g) Contributions

Contributions, including unconditional promises to give, are recognized as revenues in the period received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value.

(h) Contributions Receivable and Allowance for Doubtful Accounts

Unconditional promises to give are included in the financial statements as contributions receivable and revenue of the appropriate net asset category. Contributions receivable are expected to be received within one year, and are stated at the amount management expects to collect from outstanding balances. The Foundation considers all contributions receivable to be fully collectible; accordingly, no allowance for doubtful accounts has been established as of December 31, 2011 and 2010.

(i) Fixed Assets

Fixed assets consist of the following:

	_	2011	2010
Computer equipment	\$	25,791	27,185
Software		129,782	129,782
Equipment		28,533	36,432
Furniture and fixtures		34,297	34,297
Leasehold Improvements	_	68,134	
Total		286,537	227,696
Accumulated depreciation	_	(193,579)	(177,926)
Total net of accumulated depreciation	\$	92,958	49,770

Fixed assets are carried at cost. Donated fixed assets are carried at the approximate fair value at the date of donation. Depreciation is computed using the straight-line method.

(j) Grants

Unconditional grants are considered incurred and charged to expense at the time of approval by the board of directors.

(k) Income Taxes

The Foundation is exempt from federal income taxes under Internal Revenue Code 501(a) as an organization described in Section 501(c)(3). Accordingly, no provision for income taxes has been made.

Notes to Financial Statements

December 31, 2011 and 2010

The Foundation follows the provisions of ASC 740-10, *Income Taxes – Overall*, relating to uncertainty in income taxes. ASC 740-10 establishes a minimum threshold for financial statement recognition of the positions taken, or expected to be taken, in filing tax returns. It requires the evaluation of tax positions taken, or expected to be taken in the course of preparing the Foundation's income tax returns to determine whether the tax positions are more likely than not of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely than-not threshold are recorded as tax expense. The Foundation has no tax positions requiring accrual under this criteria.

(1) Functional Allocation of Expenses

The costs of providing the various programs and activities of the Foundation have been summarized on a functional basis in the statements of activities and functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

(m) Subsequent Events

In connection with the preparation of the financial statements and in accordance with GAAP, the Foundation considered for disclosure subsequent events that occurred after the statement of financial position date of December 31, 2011 through March 27, 2012, which was the date the financial statements were available to be issued. No subsequent events were noted that required disclosure in the financial statements.

(n) Reclassifications

Certain prior year balances have been reclassified to conform to current year presentation. These reclassifications had no impact on net assets or the financial position as previously reported.

Notes to Financial Statements

December 31, 2011 and 2010

(2) Investments

A summary of the Foundation's investments at December 31, 2011 and 2010, reported at fair value, is as follows:

	_	2011	2010
Equities	\$	8,476	21,633
Mutual funds: Large cap equity Mid cap equity Small cap equity International equity Fixed income		1,670,463 	1,670,195 580,073
Subtotal	_	2,788,471	2,919,861
Corporate bonds		31,165	58,563
Alternative investments: International Market neutral Diversified	_	1,463,785 1,112,600 1,442,305	1,396,562 1,137,514 1,538,317
Subtotal	_	4,018,690	4,072,393
Total Investments	\$	6,846,802	7,072,450

Mutual fund investments are measured at fair value based on quoted market prices. Investments in limited partnerships and offshore limited liability companies, which are described as alternative investments, are stated at net asset value in accordance with ASC 820. The financial statements of the alternative investments are audited annually by independent auditors.

The Foundation's alternative investments are diversified across three basic investment strategies as follows:

International – represents alternative investments in international equities with country and sector exposure that attempts to employ a value approach and emphasizes long-term investment and it focuses on the selection of individual securities using a bottom-up, research driven approach.

Market Neutral – represents alternative investments (fund of funds), which seek to achieve above average performance and superior service within the market's benchmark by managing hedge funds as a direct alternative to a traditional fixed income mutual fund portfolio.

Diversified – represents alternative investments (fund of funds), which seek to achieve better than benchmark performance over the long-term while having a variable range of strategies as they occur in the markets due to temporary adjustments including event-driven strategies, distressed debt, mergers and acquisitions and value investing.

Notes to Financial Statements

December 31, 2011 and 2010

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of financial position.

At December 31, 2011 and 2010, the fair value of the Foundation's investments was determined based on the following:

		2011					
	-	Quoted prices in active markets (Level 1)	Other observable inputs (Level 2)	Unobservable inputs (Level 3)	Fair value		
Mutual funds	\$	2,788,471	_		2,788,471		
Equities		8,476			8,476		
Corporate bonds			31,165		31,165		
Alternative investments	_		4,018,690		4,018,690		
	\$	2,796,947	4,049,855		6,846,802		

	2010					
	-	Quoted prices in active markets (Level 1)	Other observable inputs (Level 2)	Unobservable inputs (Level 3)	Fair value	
Mutual funds	\$	2,919,861	_		2,919,861	
Equities		21,633			21,633	
Corporate bonds			58,563		58,563	
Alternative investments	_		4,072,393		4,072,393	
	\$	2,941,494	4,130,956		7,072,450	

The Foundation's alternative investments contain monthly redemption restrictions with required written notice of 45 days, and semiannual redemption restrictions with required written notice of 90 days after the expiration of an annual lock-up period from the date of the initial investment. In addition, certain equity securities contain various quarterly redemption restrictions with required written notice ranging from 45 to 65 days. As of December 31, 2011, the following table summarizes the composition of such investments by the redemption provisions.

Notes to Financial Statements

December 31, 2011 and 2010

Redemption period	 Total Amount	Divisified	Market Neutral	International
Monthly Quarterly	\$ 311,742 2,594,348	311,742 1,130,563		1,463,785
Semiannual	 1,112,600		1,112,600	
	\$ 4,018,690	1,442,305	1,112,600	1,463,785

(3) Grants Payable

Grants payable consist of amounts awarded, but not paid, to canine health researchers. Amounts included in grants payable at December 31, 2011 are scheduled to be disbursed as follows:

2012 2013	\$ 1,852,287 914,429
2013 2014 2015	255,604 11,429
2015	\$ 3,033,749

(4) Line of Credit

The Foundation did not renew the \$250,000 line of credit with Wells Fargo (formerly Wachovia) in 2011. No amounts were outstanding under this credit line at December 31, 2010.

(5) Endowment

At the request of its donors, the Foundation has established a permanent operating endowment. The Foundation's donor-restricted endowment funds are subject to the provisions of the Uniform Prudent Management of Institutional Funds Act (UPMIFA). UPMIFA provides, among other things, expanded spending flexibility by allowing, subject to a standard of prudence, the institution to spend from an endowment fund without regard to the book value of the corpus of the fund. Management of the Foundation has interpreted this law as requiring the preservation of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary and considers the invasion of endowment principal as an option of last resort. As a result of this interpretation, the original value of all donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until these amounts are appropriated for expenditure by the Foundation, the amount is reclassified as unrestricted net assets.

Notes to Financial Statements

December 31, 2011 and 2010

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding for its programs while seeking to maintain the stability of the endowment assets. Under this policy, as approved by the board of directors, the endowment assets are invested in a manner that is intended to produce results that equal the performance of a custom-balanced index (comprising the S&P 500 Index, Russell 2000 Index, MSCI EAFE, and Citigroup 90-day Treasury Bill Index) while assuming a reasonable level of investment risk.

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints. The Foundation has adopted a spending policy, which allows up to 5% of the endowment balance to be appropriated for expenditure in a given year. In 2011, the Foundation chose not to appropriate the endowment's assets for expenditure due to the net unrealized and realized investment losses incurred.

The composition of the Foundation's donor-restricted endowment by net asset class at the end of the year is as follows:

	2	011	2010
Unrestricted	\$	_	
Temporary restricted	1	149,446	205,817
Permanently restricted	3,0	000,408	3,000,408
	\$ 3,1	149,854	3,206,225

A reconciliation of the beginning and ending balance of the Foundation's endowment, in total and by net asset class, is as follows:

	2011			
	Unrestricted	Temporarily restricted	Permanently restricted	Total
Endowment, beginning of year Interest and dividend income Net unrealized and realized	\$ _	205,817 39,618	3,000,408	3,206,225 39,618
investment loss		(95,989)		(95,989)
Endowment, end of year	\$ 	149,446	3,000,408	3,149,854

Notes to Financial Statements

December 31, 2011 and 2010

		2010			
	_	Unrestricted	Temporarily restricted	Permanently restricted	Total
Endowment, beginning of year	\$	(4,914)	77,042	2,900,408	2,972,536
Interest and dividend income			17,483		17,483
Net unrealized and realized					
investment income		4,914	280,041		284,955
Contributions				100,000	100,000
Appropriation of endowment					
assets for expenditure		168,749	(168,749)		
Expenditures		(168,749)			(168,749)
Endowment, end of year	\$		205,817	3,000,408	3,206,225

From time to time, the fair value of assets associated with donor-restricted endowment funds may fall below the level that the donor or state law requires the Foundation to retain as a fund of perpetual duration. Future gains to restore the fair value of the donor-restricted endowment funds to the required level shall first be reported as increases in unrestricted net assets to the extent of the deficiency. There was no deficiency of this nature reported as unrestricted net assets as of December 31, 2011 or 2010.

(6) Net Assets Released from Restrictions

Temporarily restricted net assets are available to fund canine research. Net assets of \$2,263,326 and \$2,109,252 were released from donor restrictions by incurring grant expenses satisfying the restricted purposes specified by donors during the years ended December 31, 2011 and 2010, respectively.

(7) Related-Party Transactions

The American Kennel Club contributed \$500,000 for research grants in both 2011 and 2010. In 2011, the Club also contributed \$5,000 towards the Foundation's National Parent Club Canine Health Conference (included in corporate sponsored events and conferences on the 2011 statement of activities).

The Foundation's offices are located within the Club's operations center in Raleigh, North Carolina. In addition to providing rent-free use of its office space, the Club also provided administrative support services to the Foundation. The total estimated value of these donated items was \$171,083 and \$165,053 in 2011 and 2010, respectively.

The Foundation's employees are covered under the Club's pension plan as a related organization. The Foundation made required contributions to this plan, which is administered by the Club, of \$13,461 and \$0 in 2011 and 2010, respectively.

Notes to Financial Statements

December 31, 2011 and 2010

(8) Concentration of Support

The Foundation receives contributions from corporate donors. Nestle Purina contributed \$1,021,498 and \$1,061,945 for the years ended December 31, 2011 and 2010, respectively. In 2011, Nestle Purina also contributed \$100,000 towards the Foundation's National Parent Club Canine Health Conference (included in corporate sponsored events and conferences on the 2011 statement of activities). Pfizer Animal Health contributed \$250,000 for each of the years ended December 31, 2011 and 2010. Also, see note 7 – related-party transactions for contributions from the Club.
